

AVI-SPL - YOUR PARTNER FOR DIGITAL WORKPLACE TRANSFORMATION

A better user experience sparks success.

Networked AV

Unified Communications

Video Conferencing

Enterprise Video

AVI-SPL helps companies and institutions that want to work smarter and improve the way people collaborate in the workplace. For organisations like yours, we create the environment and experience that makes it easy for people to be engaged and do what they're best at. You'll have solutions that have been designed to reflect and enhance your culture — tools like video collaboration, room control systems, and AV distribution over the network. We're there for you at every step of your project and beyond — from understanding your challenges to supporting the solutions that solve those challenges.

We want you to view AVI-SPL as the perfect partner — one that can take your vision for better workplace collaboration and communication and make it a reality.

AVI-SPL is passionate about giving our customers the services and solutions they need to be at their best. We do this by staying ahead of the latest trends and exceeding our customers' expectations..

We design, build, integrate, and support systems for video collaboration and unified communications, AV integration, digital media, 3D visualisation, command and control centers, and broadcast video. We also provide a wide range of support services, including cloud-based video conferencing, onsite staffing, call launching of video conferences, and remote monitoring of AV and video systems to ensure optimal performance.

Meeting solutions to drive the enterprise.

Teams that work how they want, when they want.

Digital workplace transformation starts with us.

SERVICES AND SUPPORT FOR YOUR SUCCESS

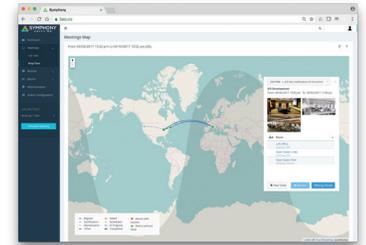

SMART SPACES

Smart Spaces – Quick deployment of collaboration spaces with an optional as-a-service model that includes ongoing AVI-SPL management.

SYMPHONY MANAGEMENT PLATFORM

Symphony Management Platform – Automates your meeting scheduling, launching, monitoring, management, and experience through our award-winning platform that gives you a global view of your AV and UC estate.

CLOUD COLLABORATION

Cloud Collaboration – Partnering with Videxio, Microsoft, Polycom, Cisco, and Pexip to deliver cloud, and on-premise collaboration as a service.

Global Accounts Management Program – For your worldwide offices, we provide in-country resources like dedicated project management, engineering, and support, all delivered in accordance with technology standards aligned with your worldwide IT, AV, and digital workplace goals. You'll also benefit from enterprise-level rebates, preferred supplier terms, and centralised business reporting. Our GAM programme features local resources for engineering, integration, and field support wherever you need them.

Global Service Operations Centre - From our London GSOC, we proactively monitor and manage your AV and video collaboration systems and the infrastructure that supports them.

Certified AVI-SPL staff work alongside your IT teams as an extension of our managed services operation. You'll have AVI-SPL experts supporting your room systems, AV devices and collaboration solutions, to ensure they operate reliably and efficiently.

AVI-SPL managed services and professional services ensure that your solutions continue to support your objectives. Whenever necessary, we will recommend updates to your collaboration ecosystem and guide the transition to new solutions.

AVI-SPL's Customer Care program provides the AV support and field services that you need to keep your systems reliable and performing at top levels: break/fix support, warranty services, and 24/7 Global Help Desk assistance. With offices and partners around the world, an AVI-SPL-trained professional is always on-call.

AVI-SPL works with your IT team to ensure that your proposed solutions seamlessly integrate with your network as we address issues like security, wireless, and bandwidth.
